SUMMARY

Third-year Computer Science and Engineering student and full-stack developer with hands-on experience across React, TypeScript, Next.js, and Node.js/NestJS. Runs an independent digital agency delivering websites, business systems, and digital marketing for small and local businesses. First-prize winner at DeFi Hackathon 2026 (VIT Chennai) and contributor to an open-source, browser-based collaborative code editor used by a 7-member team.

SKILLS

Languages	JavaScript, TypeScript, Python, C, C++, HTML, CSS
Frontend	React, Next.js, Vite, Tailwind CSS, React Router DOM
Backend	Node.js, Express.js, NestJS, REST APIs, CORS
Data & Tools	PostgreSQL, Drizzle ORM, Git/GitHub, Vercel
Other	Blockchain Integration, UI/UX Design, Google Business Profile & Meta/Google Ads

EXPERIENCE

Frontend Developer, TalkEase Jan 2026 - Apr 2026
Chennai, India

- Built and maintained production front-end features using React and modern JavaScript in an agile team environment.

Founder & Web Developer, Independent Digital Agency 2025 - Present
Chennai, India

- Designed and shipped custom websites and business systems for preschools, tutoring institutes, and local businesses, including Shafa Kids Pre School, Sunbeam Sprouts, London Kids Preschool, Bees' Pre School, and TimberCraft.
- Managed Google Business Profile optimization, social media handling, Instagram marketing, and Meta/Google Ads campaigns for small-business clients.
- Led client-facing scoping and pitch strategy, shifting the client base toward higher-value verticals such as interior design, real estate, and specialty clinics.

Frontend Developer, Colab IDE (Open Source) Jan 2026
Remote | 7-member team

- Shipped a production-grade, web-based multi-language collaborative code editor using React 18, Vite, and Tailwind CSS.
- Led UI/UX design and built responsive layouts; managed version control, testing, and deployment via GitHub and Vercel.

PROJECTS

Gyo Neural Analytics - SaaS Analytics Dashboard 2026

- Built a full-stack analytics platform with a React/TypeScript/Vite/Tailwind frontend and a NestJS, PostgreSQL, and Drizzle ORM backend, including a full brand and design-system audit.

Pulse Analytics - Data Dashboard 2026

- Scaffolded an analytics dashboard using React 19, Tailwind v4, ECharts, and TanStack Table with a custom design-token system.

Multi-Code Editor (Colab IDE) 2026

- Live at colab-ide-nine.vercel.app; source at github.com/deepak-raven/Colab-IDE.

AWARDS

- First Prize, DeFi Hackathon 2026, VIT Chennai - built an innovative blockchain-based DeFi solution.
